

Internship Admissions, Support, and Initial Placement Data

Date Program Tables are updated: 10/29/2023

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic presentation requirements:

Students interested in applying for the internship program should submit an online application through the APPIC website (www.appic.org). A complete application consists of a completed Online AAPI (APPIC's standard application), a cover letter, a current Curriculum Vitae, three letters of recommendation, two of which must be from persons who have directly supervised the student's clinical work, official transcripts of all graduate coursework, and two redacted psychological reports. It is preferred that one be on an adult and the other on a child/adolescent. All application materials must be received by the date noted in the current APPIC directory listing in order to be considered. Applicants who have a minimum of 500 intervention hours, a minimum of 100 assessment hours, dissertation proposal defended, some experience or special interest in working with severe and persistent mental illness, practicum experience in psychological assessment of adults and children/adolescents, and current enrollment and good standing in an APA-accredited doctoral program will be considered preferred. All applications will be screened by MHC Florida Internship Program's Training Committee, using a standard Intern Application Review Form, and evaluated for potential goodness of fit with the internship program. The Training Committee will hold a selection meeting to determine which applicants to invite for interviews based upon the results of this screening process. All internship applicants will be notified by email and/or phone on or before January 4 whether or not they have been invited for an interview. Interviews will be scheduled for the last two (2) weeks of January and will occur in person. Interviews will be conducted using a standard set of interview questions, although members of the Training Committee may ask additional interview questions of applicants as appropriate. All applicants will be subject to a criminal background check and the offer for intern placement is contingent upon passing this screening. The Training Committee will hold a meeting within one week of the final interviews being completed, in order to determine applicant rankings. The full application package and information gleaned from the interview process will be utilized in determining applicant rankings. As a member of APPIC, MHC Florida Internship Program will participate in the national internship matching process by submitting its applicant rankings to the National Matching Service. After matching with the program and prior to the internship start date, all interns are required to successfully pass a Level II background check. Specific information regarding what will cause an applicant to fail this requirement can be found here: http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&URL=0400-0499/0435/0435.html

Does the program require that applicants have received a minimum number of hours of the following time of application? If yes, indicate how many:

Total Direct Contact Intervention Hours	Yes	Amount: 500	
Total Direct Contact Assessment Hours	Yes	Amount: 100	

Describe any other required minimum criteria used to screen applicants:

Internship Admissions, Support, and Initial Placement Data

None.
